REQUEST FOR RECONSIDERATION
FOR CERTIFICATE OF CORRECTION UNDER 37 CFR 1.322

Applicants submitted a Request for Certificate of Correction on November 12, 2004. Therein, Applicants noted errors that were not due to mistakes by Patentees. The listed errors included a notation at Column 15, line 40, where the word "comprising" was omitted from Claim 1.

The Office issued a Certificate of Correction, but denied Applicants' request as it related to Column 15, line 40. According to communication from the Office, "column 15, line 40 is printed in accordance with the record." Applicants respectfully disagree.

The Notice of Allowability included an Examiner's Amendment in which the Examiner amended line 3 of Claim 13 (now Claim 1) by inserting the phrase "composition comprising an effective stabilizing amount of an antioxidant and an amino acid" after the word "acid." (A copy of the Notice, including the Examiner's Amendment, is attached hereto.) When printed, issued Claim 1 included the foregoing phrase without the word "comprising." Thus, the record clearly reflects that Applicants' request was in order and consistent with the amendment entered by the Examiner.

In accord with the foregoing, a new Certificate of Correction is submitted for the above-identified patent. As noted, the correction is based on a mistake due to printing and is not a mistake by the patentees.

Attached in duplicate is Form PTO/SB/44. Please return one copy when the Certificate of Correction has been approved.

Respectfully submitted,

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mike Blake on April 1, 2004.

The application has been amended as follows:

The Specification:

On page 2, delete the first sentence beginning with "The application claims priority..." and insert – This application claims priority under 35 USC 120 to US application 09/870995, now US Patent No. 6,660,712, and priority under 35 USC 119(e) to US Provisional application 60/208502, filed June 2, 2000, which are incorporated herein by reference. --

The Claims:

In claim 13, line 3, after "acid" insert – composition comprising an effective stabilizing amount of an antioxidant and an amido acid --.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Note that, the Examiner's Amendment is sufficient to place the instant claims in condition for allowance.

Of the references of record, the most pertinent are Knowlton et al (US 5,712,239) or WO 95/07883. Knowlton et al teach a liquid detergent composition comprising 1 to 80% by weight surfactant, a peroxyacid, and 0.01% to 20% by weight of a mono substituted phenolic compound. However, Knowlton et al do not teach the use of the specific amido acid as recited by the instant claims nor the reaction of an antioxidant-stabilized amido acid with a phenyl alcohol salt to form an amido phenyl ester salt as recited by the instant claims.

'883 teaches chemical synthesis of amido acids, and their conversion to amido acid phenyl ester sulfates for use as bleach activators, starting from carboxylic acids and lactams. See Abstract. However, '883 does not teach the use of antioxidants in combination with amido acids to stabilize the amido acids nor the reaction of an antioxidant-stabilized amido acid with a phenyl alcohol salt to form an amido phenyl ester as recited by the instant claims.

None of the references of record, alone or in combination, teach or suggest a process for preparing an amido phenyl ester salt comprising reacting in a reaction vessel an antioxidant-stabilized amido acid composition and a phenyl alcohol salt, under conditions sufficient to form an amido phenyl ester salt, as recited by the instant claims. Accordingly, since the prior art fails to teach or suggest such a process as recited by the instant claims, the instant claims are deemed allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

Art Unit: 1751

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Gregory R. Del Cotto whose telephone number is (571) 272-1312. The examiner can normally be reached on Mon. thru Fri. from 8:30 AM to 6:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Yogendra Gupta can be reached on (571) 272-1316. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only.
